

# PLT® Quick Coupling

For easier operation during filling of Launching Unit

Article 4207

## Quick Coupling

Quick Coupling for reloading PLT® Mini with compressed air. Fits any standard 5/8" diving cylinder. Reduces the air pressure to correct working pressure. Used on our Air Cylinder Art. No. 1306/1307 and Art. No. 4306.

## Capacity

With Art. No. 1306/1307 you will get 22 (with 300bars) and 14 (with 200bars) launches.

With Art. No. 4306 (300 bars) a maximum of 13 launches.

Art. No. 1312 can be used to connect with an Air Cylinder
